Carbon Printing Manager Reference

Framework:	Carbon/Carbon.h
Declared in	PMApplication.h PMApplicationDeprecated.h PMCore.h PMCoreDeprecated.h PMDefinitions.h PMDefinitionsDeprecated.h

Overview

The Carbon Printing Manager has been divided into two APIs called Core Printing and Carbon Printing. Carbon applications can use Carbon Printing for printing tasks that display a user interface, such as the Page Setup and Print dialogs. All applications can use Core Printing for printing tasks that do not display a user interface.

The Carbon Printing Manager reference documentation has been moved into two new documents, *Core Printing Reference* and *Carbon Printing Reference*.
